WizLAN – IFSEC Highlights

Network Cyber Guards

- 🛡 **Security & Surveillance**
- 🛡 **Critical Infrastructure, Utilities & Finance**
- 🛡 **Safe City & City Networks**
- 🛡 **Highway control & Transportation**

Outdoor Gigabit PoE Switch with unique Cyber Security option

WI-1200 **the ultimate building block for outdoor/industrial networks**

- 🛡 **Unique Cyber Security network protection**

- 🛡 **12 Gigabit ports: 8x 10/100/1000Base-T and 4x SFP 100/1000Base-X**
- 🛡 **PoE 240W total, supporting IEEE802.3af/at and ultra-at (60W)**
- 🛡 **Isolated discrete I/O ports (In and Out)**
- 🛡 **Isolated serial (legacy) port**
- 🛡 **Dual power inputs with wide rang DC options**
- 🛡 **High industrial/outdoor immunity and isolation**
- 🛡 **Standard: CE, FCC, UL, VCCI**
- 🛡 **Enhanced management**

Network Diodes, Certified – WSD-2; VIT-400

- 🛡 **Data transparent network diodes**
- 🛡 **Pure HW, unmanaged – intrusion/hacker proof**
- 🛡 **Fiber optic coupled, local or remote**
- 🛡 **Gigabit and Fast Ethernet standard LAN interfaces**
- 🛡 **Fits any unidirectional data transfer application**

Un-Interrupted Gigabit Switch- WUP-806

- 🛡 **Built-in UPS system**
- 🛡 **Un-Interrupted data & PoE devices**
- 🛡 **Maintains data and communication, WiFi, IP phones, IP cameras, IP lighting**
